PROFILE

I am Robby Chandra, a 5th-semester student majoring in Mobile Application and Technology at Bina Nusantara University. I have expertise in mobile and web application development, with experience using various technologies such as C, Java, Python, MySQL, HTML, CSS, JavaScript, Kotlin, Flutter, and more. Currently, I am seeking an internship opportunity to further develop my skills and gain valuable industry experience.

PROJECT EXPERIENCE

- **Willify**
 - Willify is a Music Player website project that I developed using HTML, CSS, and JavaScript. This website has functionality similar to popular music platforms like Spotify and SoundCloud.
- **Virtual Fitting Room**
 - Virtual Fitting Room is an application I developed using Unity with Augmented Reality features. This app allows users to try on clothes from offline stores online, eliminating the need to visit physical stores.
- **Puff & Poof, Bonk Garage, and Pure Plate**
 - Marketplace applications for different products: dolls, die-cast toys, and healthy food. Developed using Android Studio and Kotlin, with functionality similar to Shopee/Tokopedia.
- **Bonk Toys**
 - Bonk Toys is a specialized marketplace application for buying and selling action figures, similar to Shopee and Tokopedia but focusing on action figures. I developed this application using Flutter.
- **DokDok**
 - A user-friendly healthcare app designed with Figma. Inspired by popular platforms, it offers a streamlined way to access medical services and information from your device.
- **Portofolio Website**
 - A personal portfolio website developed to showcase my skills, projects, and professional experience in web development.
